

My involvement at PCK began around the summer of 2013 when my beautiful wife of 10 years accepted a 1<sup>st</sup> grade position at PCK. Since then I have met many students, parents, and teachers while visiting and volunteering. Seven years later I am a father of three, including a current 1<sup>st</sup> grader, while my wife has chosen to take some time off from teaching to care for our children. During the past 7 years, I've seen firsthand the academic and character achievement in the students. I believe this is due to PCK's devoted teachers, professional administrators, and community.

I have been involved in the PCK community for almost a decade and with a 1<sup>st</sup> grader, a junior kindergartener, and my youngest on the list for the 2024 PCK kindergarten class I will have been involved in the PCK community for at least an additional decade. With that being said, I would like to officially apply to join the PCK Board of Directors and help continue PCK's long history of achievement.

I have been a Financial Investigator for an independent, non-governmental regulatory agency for all securities firms for the past 10 years. I utilize my knowledge of financial products and securities laws to investigate various investor complaints, tips, and other material events to ensure investor protection and enforce the securities laws. My experience has taught me to remain objective, to evaluate all evidence, and to effectively articulate outcomes without complexity. I hope to utilize by personal and professional experiences to expand the PCK foundation for continued strong achievement in specials, academics, and character. Thank you for your consideration.
