

The Earth Day committee is looking for two parents with a passion for our magnificent planet! If you have a connection with the environmental industry or a background in science, we would love to have you on the committee!

The Committee works with PCK Staff to plan environmental classroom instruction, hands-on projects, special guest visits, career guidance, contests and more! We meet monthly in January through April. Plans for Earth Week this year are well underway so there is no work expected from new committee members other than in a supporting role.

Please contact Johanna Harth at jharth@ckcs.net to join!
