

Musical Activities for grades K-5

Earth day is quickly approaching! Did you know you can make instruments from everyday objects?

Check out this link for some inspiration!

[Make your own instruments](#)

If you make an instrument, be sure to share a picture with Mrs. Myers and Mrs. Waltz!

Additionally, in Paraguay there is a very special orchestra for children that makes their own instruments from objects they find in a landfill. Their story is truly inspiring! Students, watch and listen closely, many of the pieces they play are from our Core Knowledge Curriculum! Parents, you may need to help read the English subtitles.
