

# Beginner Robotics Summer Camp

Learn how to  
design, build and program  
awesome

**LEGO MINDSTORMS robots!**

Each day, campers will combine the fun of Legos, robotics, and programming to learn to build and program different projects, complete challenges and missions.

Just some of our projects:

- Roomba vacuum
- Industrial Sorting Station
- Robots inspired by animals and insects
- Self-driving car

Students from grades 5-8  
are welcome to join!

June 9th - June 25th  
Tuesday through Thursday

8:00am - 12:00pm (4 hours per day)

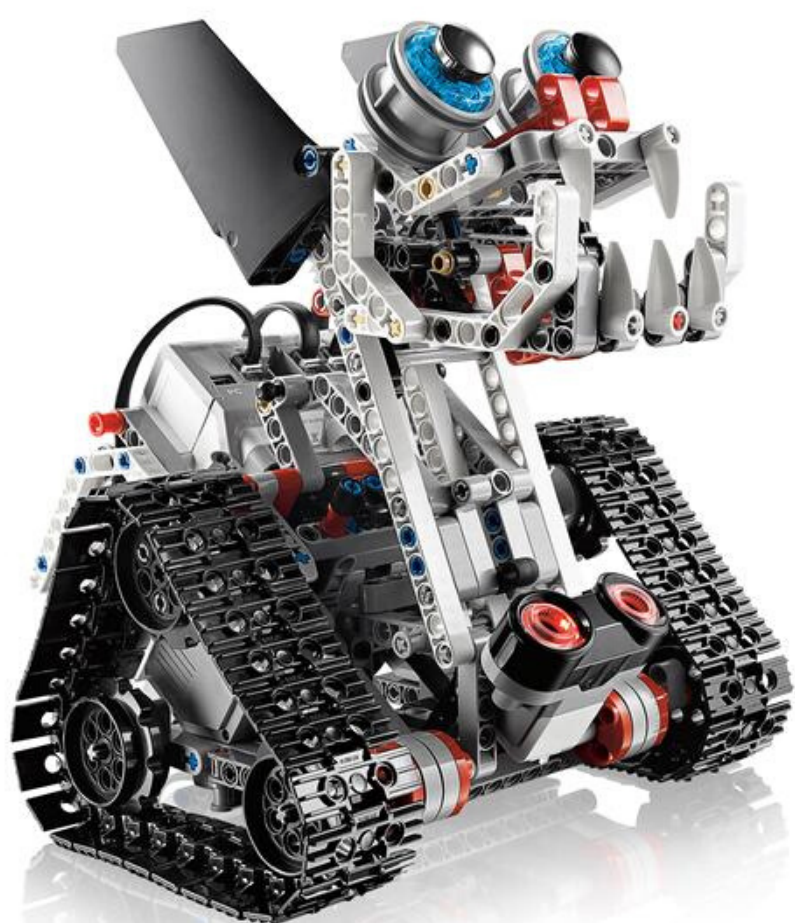

Teacher: Mrs. Henderson

Register Now and Pay by June 7th

PCK Web Store Fee: \$350 (\$300.00 ( \$30 per day)  
+\$50.00 Materials Fee )

14 openings

# DASH and DOT Robotics Summer Camp

Learn simple robotics with  
the help of Dash and Dot. It's  
time to start programming  
{ Dash } the fun!

Dash and Dot are robots that  
can sense, act and think! They  
can sing, dance, navigate  
courses, and respond to voice  
commands. Campers will get to  
practice coding the robots and  
participate in a variety of  
different challenges.

**Students from grades 2-4  
are welcome to join!**

**July 7th - July 23rd  
Tuesday through Thursday**
