

April 9, 2020

PCK Students and Parents,

The Technology Department has updated assignments and resources on our website, tech.ckcs.net.

For elementary grades (Kindergarten-5th Grade): Students should prioritize their core classes, however, weekly recommended assignments are posted on the website as well as Google Classroom. Students can complete these lessons at their own pace.

We're also excited to announce that [TypingClub](#) is now free, so 1st-5th grade students can continue to work on their keyboarding skills at home. They just need to log in with their school Google credentials to get started.

For students in 6th-8th Grade: Their assignments are posted in Google Classroom as well as tech.ckcs.net. Sixth graders have coding lessons due this week on Tynker.com. Middle school is finishing up their image editing unit. Seventh graders should submit their book jacket covers that they designed on Pixlr.com by Friday, and eighth-grade movie poster designs are due this weekend as well. Check out the Tech website to see some student exemplars.

We are available at any time to help you. Please leave comments in Google classroom, message us on Google Chat, invite us to a Google Meet, or simply email us with your questions or concerns.

Sincerely,

Mrs. Henderson & Mrs. White
