

Dear PCK Students and Parents,

The Technology Department would like to assist you with resources during the school closure. All current assignments and resources can be found at [tech.ckcs.net](http://tech.ckcs.net), where we will be providing activities for all grade levels to help students continue to improve their keyboarding skills, learn to program, and get creative with technology.

For elementary grades (Kindergarten-5th Grade): We would like our students to prioritize their core classes, however, we are still going to be providing weekly recommended assignments that students can complete at their own pace. Those assignments can be found at [tech.ckcs.net](http://tech.ckcs.net) as well as Google Classroom.

For students in 6th-8th Grade: The assignments have been posted in Google Classroom as well as [tech.ckcs.net](http://tech.ckcs.net). PLEASE NOTE CORRECTION, these assignments have a due date and will be graded.

We are always here to help you! Leave messages in Google classroom or simply email us with your questions or concerns.

Mrs. White & Mrs. Henderson
