

Hello parents and students,

We wanted to touch base with you about a few changes that have taken place this last week. This has been a challenging transition for families so art lessons will now be optional allowing more time for core subjects. Our goal is to provide your children with quality lessons that will be fun as well as educational; learning about a new artist and art history. We hope that your children will carve out time to be creative as it is so essential to the learning process.

Each week we will plan new art lessons that will be based on the scope and sequence for the Core Knowledge Curriculum. We will also link some activities or other fun art projects and videos.

There are three ways to access the lessons:

1. Read the weekly newsletter
2. Go to our teacher website, click on classes and then find the grade level.
3. Google Classroom for grades 2nd-6th.

The art your children create brings us so much joy. You can submit a picture of the art on google classroom or send us a picture to our emails. We want to sincerely thank you for being patient with us as we adapt to teaching online. In the midst of all this, we hope you are enjoying time with your children. We sure do miss their smiling faces.
